PRINTRONIX T5000 / SL5000 Thermal Printer
Maintenance Plan Summary

Revision Date	Revision Comments
01/03/00	Preliminary Release
03/02/00	Updated, part number changes and additions, pricing added.
06/21/00	Updated part numbers, added several part numbers, changed sparing level from 3 to 2 on several items, pricing updates. Added T5X04 part information.
07/14/00	Corrected Warranty Policy
08/31/00	Added Phase 2 Spare Parts
04/26/01	Updated, part number changes and additions, pricing added.
07/26/01	Added Maintenance Contract Pricing sheet.
10/01/01	Changed Print Head Warranty Duration.
02/07/02	Updated, part number changes and additions, pricing added.
09/12/02	Added Phase 3 Spare Parts, Updated Parts Pricing and Maintenance Contract
11/18/02	Updated Maintenance Contract Pricing
05/05/03	Added Power Cart Spare Parts and Pricing
08/22/03	Updated Maintenance Contract Pricing
07/02/04	Added Unique and Common Spares for SL5000^e MP/C1 (RFID Phase 2)
12/12/04	Added Unique Spares for T5000r / SL5000r
01/05/05	Added Unique Spares for T5000^e (RFID Phase 1)
04/15/05	Added Unique Spares and Pricing for T5000r / SL5000r and Updated Maint.Contract Pricing
2/28/06	Updated Part Numbers and Pricing. Moved T5000r/SL5000r parts to 'r' version MPS
04/19/07	Updated Singapore phone numbers
	Randy Carter (714) 368-2860

PRINTRONIX T5000 / SL5000 Thermal Printer
Maintenance Plan Summary

Index

PRINTRONIX T5000 / SL5000 Thermal Printer
Maintenance Plan Summary

The T5000 Series of Printers consists of a family of high quality, Direct Thermal and Thermal Transfer printers specifically designed for printing labels and tags, from any MS-DOS, Windows, or ASCII based compatible computer.

The T5000 Thermal Transfer family includes three basic models, T5X04, T5X06 and T5X08. The model number indicates the print resolution and the print width. For example, a T5206 is a 203 dpi printer with a 6-inch print width and a T5308 is a 300 dpi printer with an 8-inch print width. The printhead is interchangeable so that a 203 dpi printer in the field can be easily upgraded to be a 300 dpi printer, typically by a customer. The printhead is a customer replaceable consumable. 4, 6 and 8-inch printheads must be used with 4, 6 and 8 inch models. A 6-inch head cannot be mounted in an 8-inch model and vise versa.

Printer Model	Max Print Speed (ips)	Printing Density (dpi)	Max Print Width (inches)
T5204	10	203	4.1
T5304	8	300	4.1
T5206	10	203	6.6
T5306	8	300	6.6
T5208	8	203	8.5
T5308	6	300	8.5

T5000 Thermal Features
- Emulations: The T5000 has the standard Printronix LinePrinter Plus (LP+) emulation which provides direct compatibility with Printronix P-series printers. In addition, the printer has co-resident Printronix IGP/PGL and IGP/VGL emulations which provide printer subsystem commands for text, barcodes, graphics, lines, and boxes.
- T5000r also includes Protocol Interpreters for PPI/ZGL (Zebra), PPI/TGL (TEC), PPI/IPL (Intermec) and PPI/STGL (Sato).

- Hardware Options:
    - Fonts   A selection of fonts is available to extend the capabilities of the standard resident fonts.
    - Memory Expansion:
        - 16MB DRAM SIMM: Additional memory to accommodate long labels.
        - 10MB Flash SIMM: Additional memory to accommodate IPDS.
        - The T5000r comes with 32MB DRAM fixed and 8MB Flash upgradeable to 16MB for forms, logos and fonts.
    - Media Cutter: A Heavy Duty cutter is used to automatically cut printed media.
    - Label/Tag Catcher Tray: Used with the Media Cutter option to catch the cut media and collect it away from the Media Cutter Assy.
    - Internal Label Rewinder: Used for Batch rewind or Peel-Off mode, peels off labels one at a time before printing the next.
    - Coax / Twinax Host Interface: Provides connection to an IBM host computer system using a coax or twinax interface.
    - PrintNet Servers: Allows the user to attach to a LAN rather than attaching it directly to a host system. PrintNet servers are available as an internally option with the 10/100Base-T (UTP) connection. Wireless 802.11b is also available.
    - On-Line Barcode Validator: Provides on-line verification of printed barcodes.
    - The T5000r additional features include a Real Time Clock, USB Communication, GPIO (General Purpose I/O) and an RFID Upgrade Kit for the T5x4r or T5x6r.

PRINTRONIX T5000 / SL5000 Thermal Printer
Maintenance Plan Summary

Note: The prices quoted here are for U.S. location only. Prices for the other areas can be obtained by calling the appropriate numbers listed below.

Key Maintenance Data:

MTBF: 20,000 Hours based on 25% mechanical duty cycle, 25% electronic duty cycle (power on), excluding the printhead. The printhead is considered a consumable and the wear is dependent on usage, media and ribbon.

MTBPM: No specific maintenance is required other than routine operator cleaning.

MTT Install: 15 Minutes, user installable.

MTTR: 20 Minutes

End User PM: Periodic cleaning, depending on site environment, amount of usage and media used. For exact procedures review the appropriate T5000 User's Manual.

II. Training:

Training for the T5000 Thermal Printer for service and maintenance is a two (2) day class. Classes are offered on a regular scheduled basis at our training centers or by special arrangement at the customer facility. To schedule training, contact Customer Service Training Department:

Irvine, CA	(714) 368-2332
Wijchen, Holland	(31) 24 6489 489
Singapore	(65) 6548-4114

III. Technical/Product Support:

Printronix Technical Support personnel are available for telephone consultation and assistance on the T5000 Thermal printer. To provide worldwide assistance, Printronix has three Technical Support numbers available;

Irvine, CA	(714) 368-2686	6:00 AM to 5:00 PM Pacific Time
Wijchen, Holland	(31) 24 6489 489	9:00 AM to 7:00 PM (C.E.T)
Singapore	(65) 6548-4114	8:00 AM to 5:30 PM Singapore Time

179067-901	RFID,Reader Assy,AWID-868	$1,012.00
178434-901	RFID,Reader Assy,ALIEN	$1,012.00

V. Warranty:

This printer is warranted against defects in material and workmanship under normal use for a period of ninety (90) days from the date of shipment to buyer (90 days warranty applicable to U.S. only). The warranty on all spare parts, excluding print heads, is one year, return to Printronix Repair Center location.

Warranty for the print head is 1,000,000 inches for Direct Thermal printing and 2,000,000 inches for Thermal Transfer printing or 180 days (whichever comes first)

Warranty for the Data Validator Option is the same as for the printer as noted above. As a spare part, warranted as any other part.

Warranty for the Cutter Option is 500,000 Cuts.

The Printer and/or any constituent part thereof (Printronix manufactured only) determined by Authorized Service Provider to be defective during the warranty period will be repaired provided the printer (a) has proof of date shipped, (b) has been properly installed and maintained, and (c) has not been damaged, subjected to misuse or abnormal operation or altered or improperly configured, installed or repaired by unauthorized personnel or others in a manner which Authorized Service Provider reasonable determines to have adversely affected performance or reliability.

Liability under this warranty is limited to the repair or replacement of the defective part. Repair or replacement of the part thereof shall neither extend nor decrease the warranty period.

NOTE: Damage due to misuse, abuse or that caused by common carrier during transit is excluded under the warranty provision.

VI. T5000 Suggested Maintenance Pricing (U.S. Prices)

    See attached Maintenance Contract Pricing list on the last pages of this MPS

  Note: The Printhead is a user replaceable consumable.

VII. Spare Level Definitions:

Level 1 Spares:	Supports up to 10 printers, recommended for first call support.
Level 2 Spares:	Supports up to 20 printers, recommended for next day availability.
Level 3 Spares:	Additional available spares.
Level 4 Spares:	Service Replaceable Expendable - customer responsibility
Level 9 Spares:	Customer responsibility, end-user replaceable consumable.

  Note: The level 1 Spares provide 90% serviceability and combined with level 2 Spares, the serviceability is 95%. Combine that with level 3 Spares for complete product field support.

The recommended tools, consumables and spares list, including applicable repair pricing are attached in the following pages for reference information and planning. Spares may be ordered by contacting the Printronix Order Entry Department:

Irvine, CA	(714) 368-2684
Wijchen, Holland	(31) 24-64-89489
Singapore	(65) 6548-4163

VIII. T5000, Printronix Recommended Tools

Standard Field Service Tools Including:

- Screw Drivers: Flat Tip, ¼ inch blade,   Phillips, #1
- Pliers: Needle-Nose Pliers, 5 inch,   12R Internal Snap Ring Pliers
- Hex key, Angled, 2mm, 2.5mm and 3mm
- 3/16 inch Nut Driver
- Feeler gauge set, blade type, with 0.010 inch (0.254mm) and 0.077 inch (1.96mm) gauges
- Volt/Ohmmeter
- Torque Wrench with ¼ inch hex receptacle and a range of 0-20 inch-pounds, with hex key sizes 2mm and 3mm and #1 Phillips bit.
- Loctite 222 thread locker or equivalent
- Bearing lubricant, M3 density, P/N 101805-001
- Printhead Cleaning Pen (P/N 203502-001) or isopropyl alcohol and cotton swabs
- Static Wrist Strap

IX. T5000, Printronix Recommended Field Spares (U.S. Prices)

The recommended spares list, including applicable repair pricing are attached in the following pages for reference information and planning. Spares may be ordered by contacting the Printronix Order Entry Department:
